

early_neonatal Males at initialization

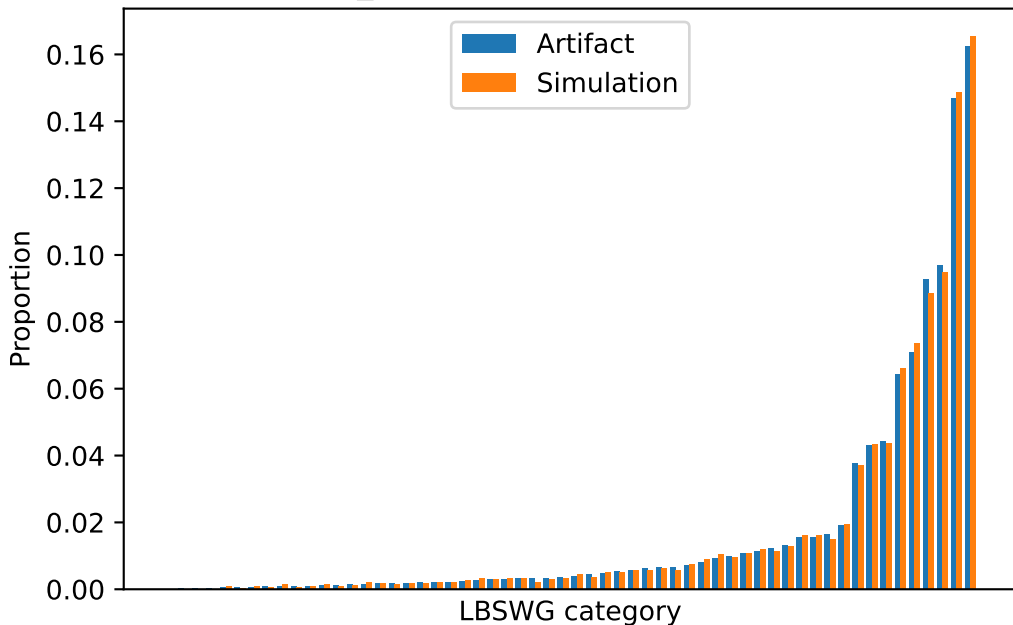

Logit-transformed exposure distribution from artifact

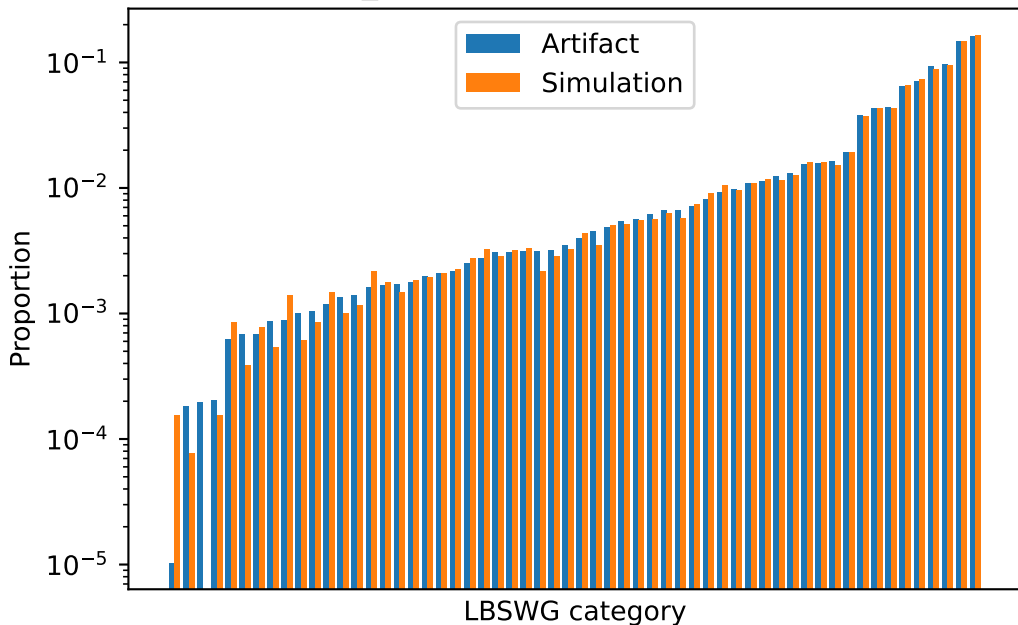

Simulation exposure relative to artifact percent difference

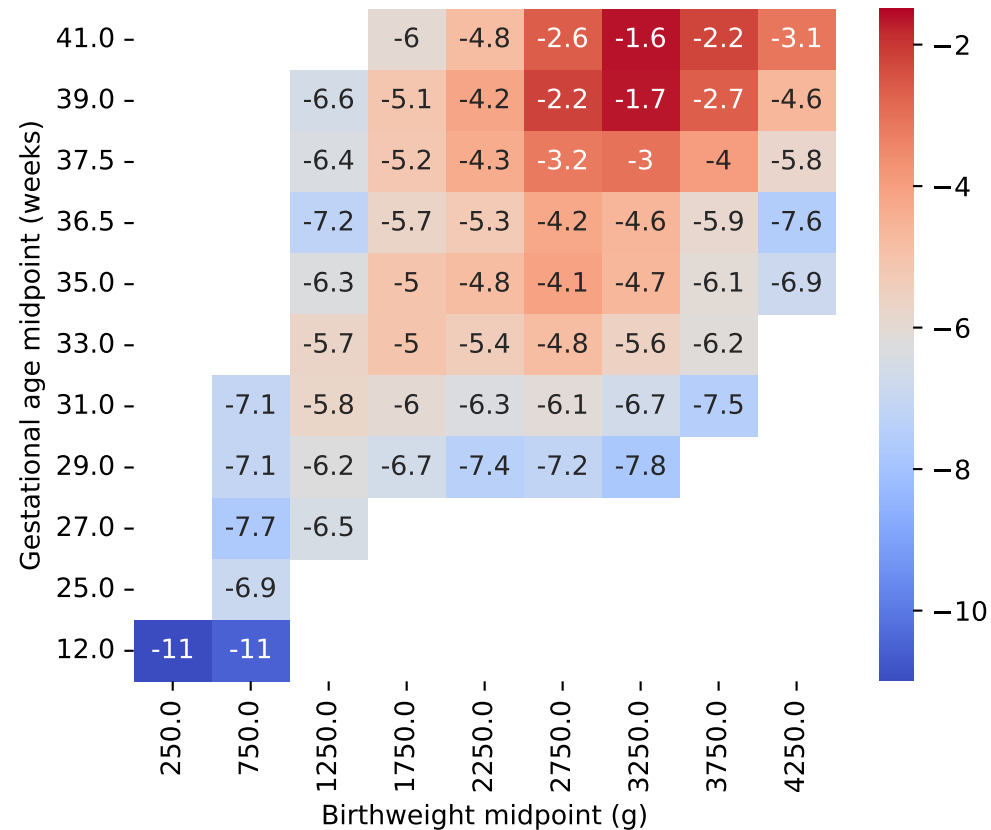

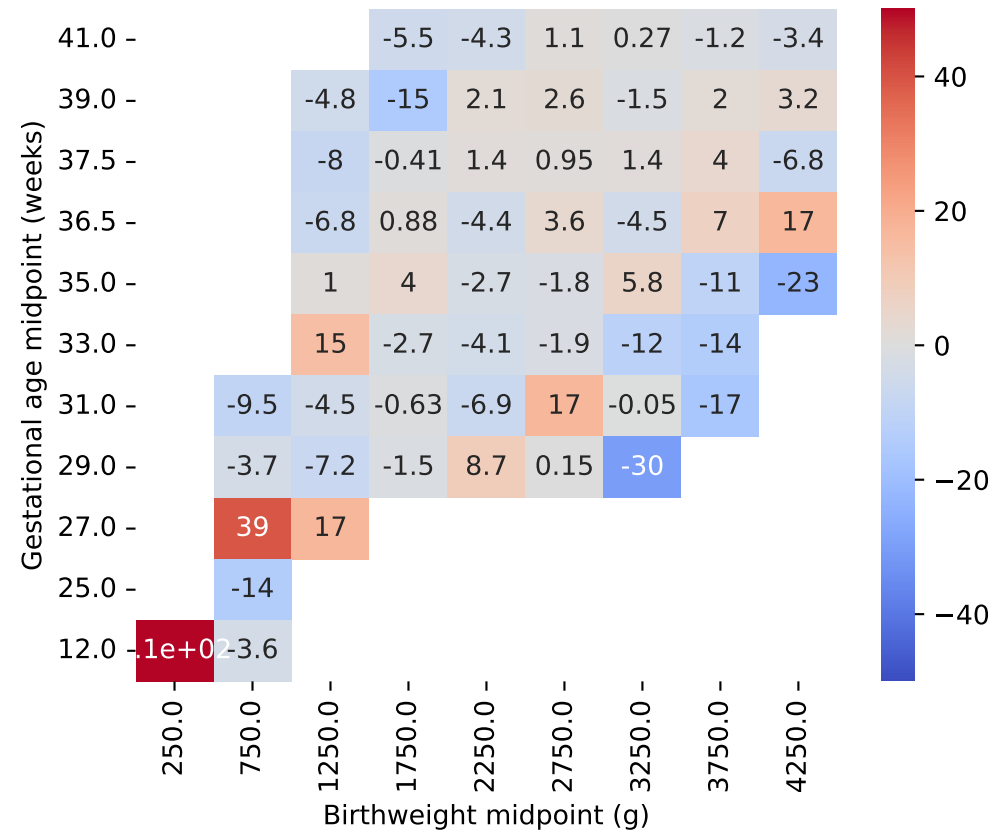

early_neonatal Males at initialization

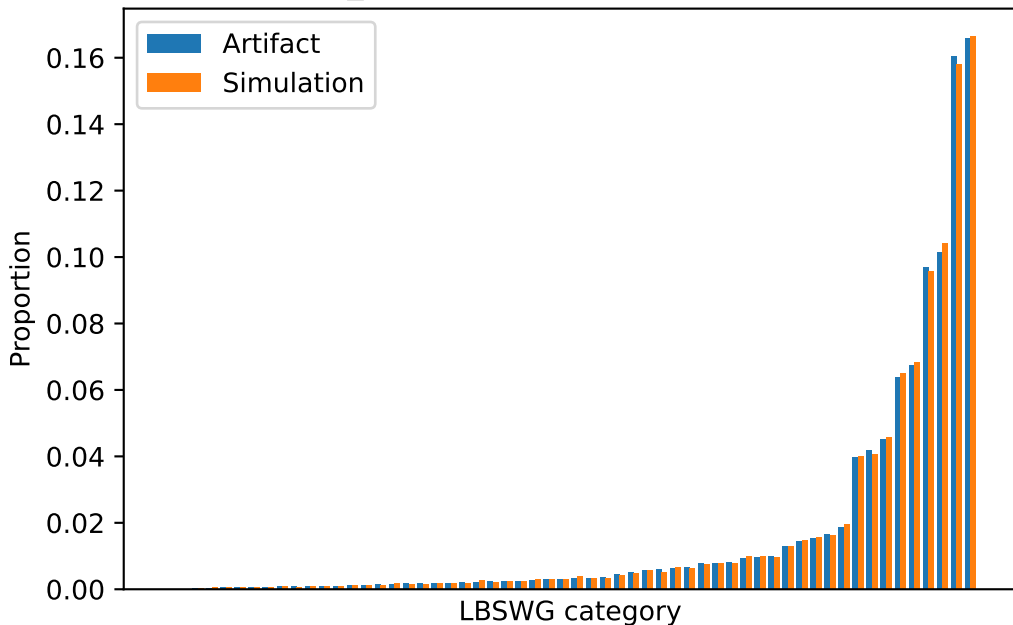

early_neonatal Males at initialization

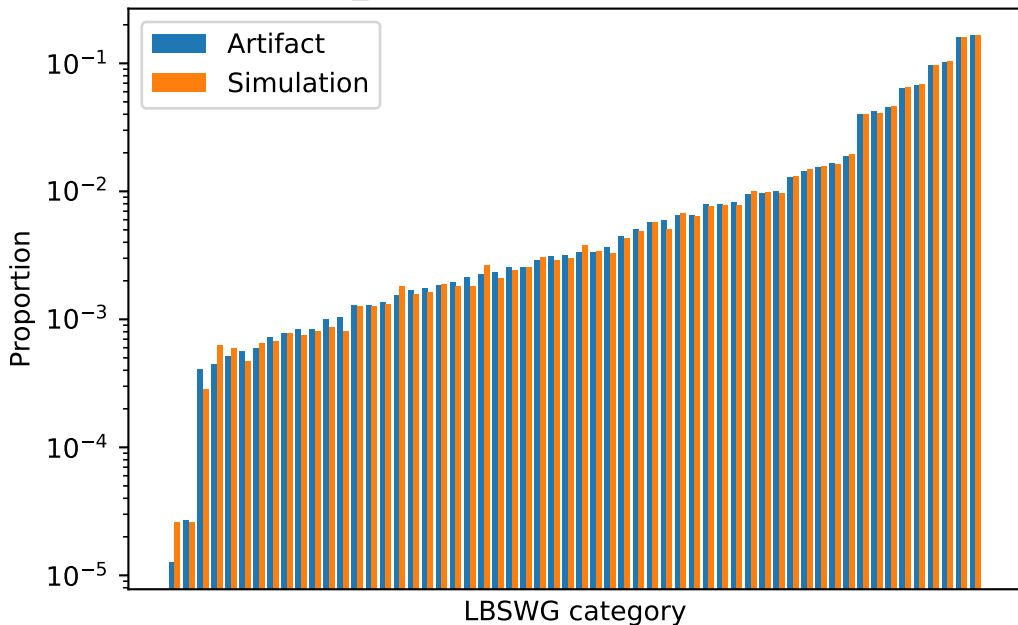

late_neonatal Males at initialization

Logit-transformed exposure
distribution from artifactSimulation exposure relative
to artifact percent difference

late_neonatal Males at initialization

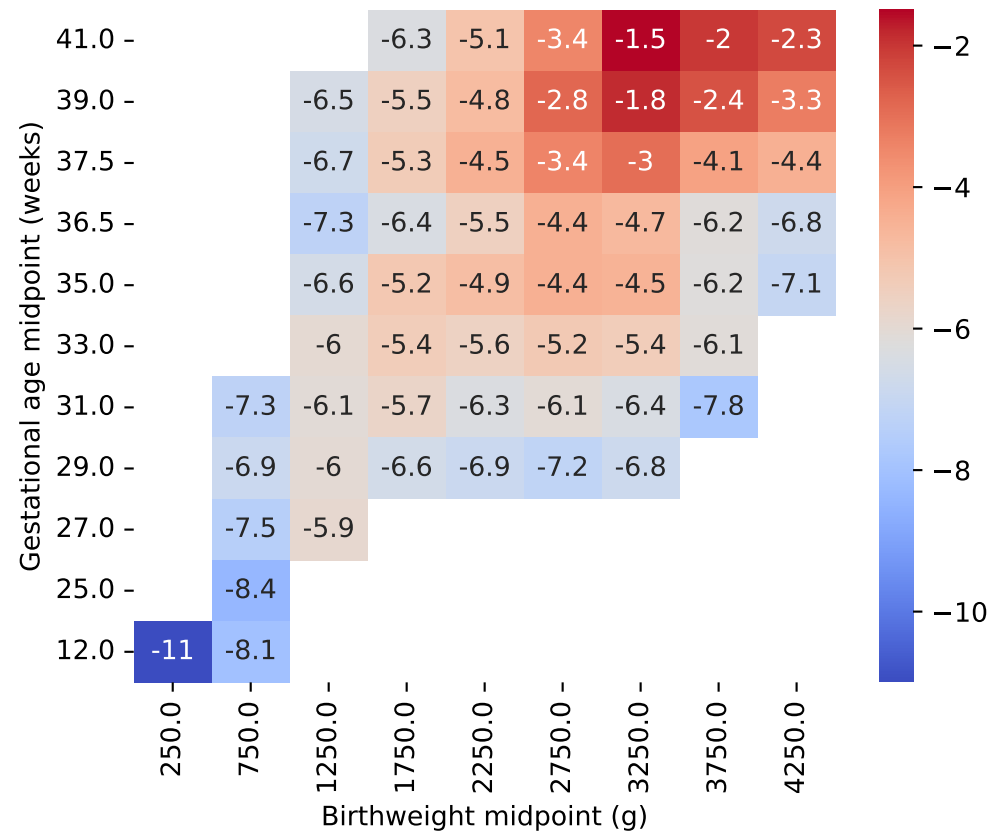

late_neonatal Males at initialization

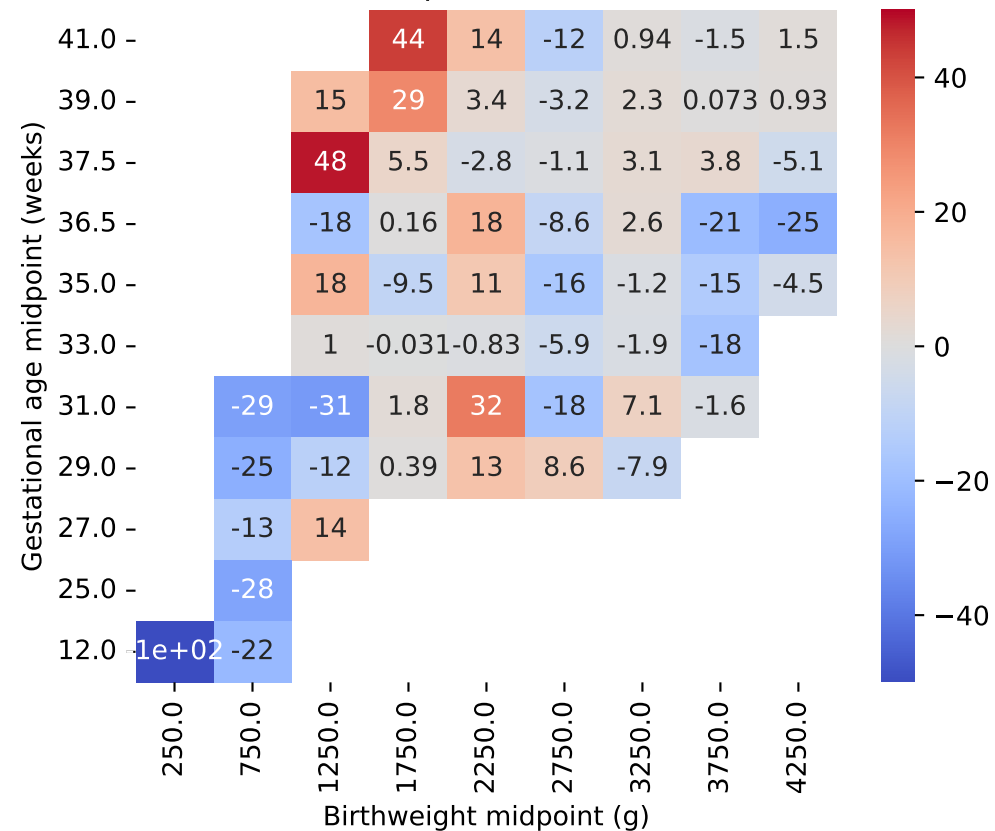

early_neonatal Females at initialization

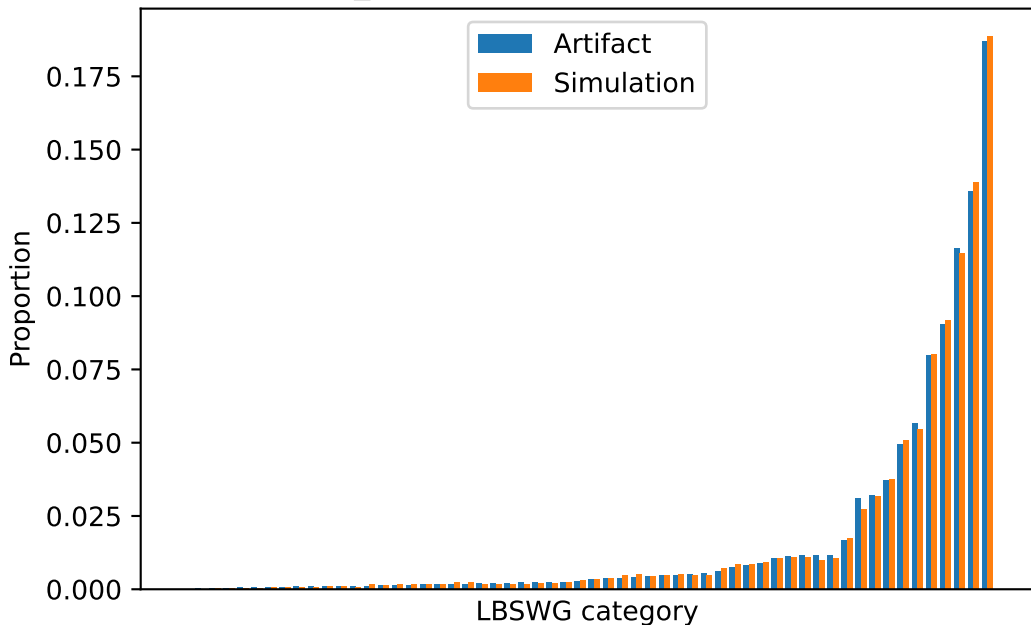

Logit-transformed exposure distribution from artifact

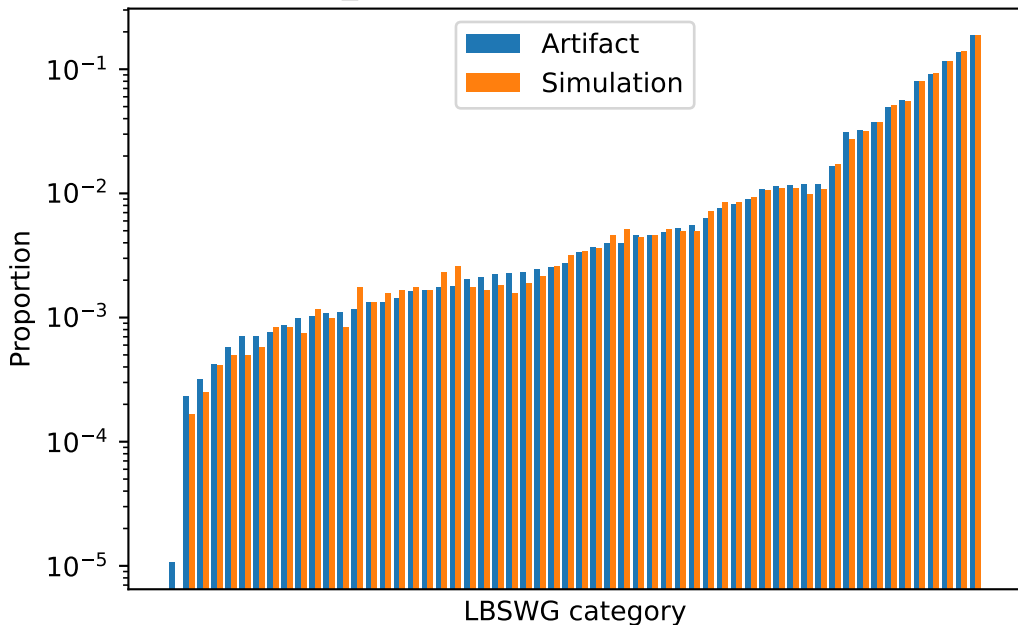

Simulation exposure relative to artifact percent difference

early_neonatal Females at initialization

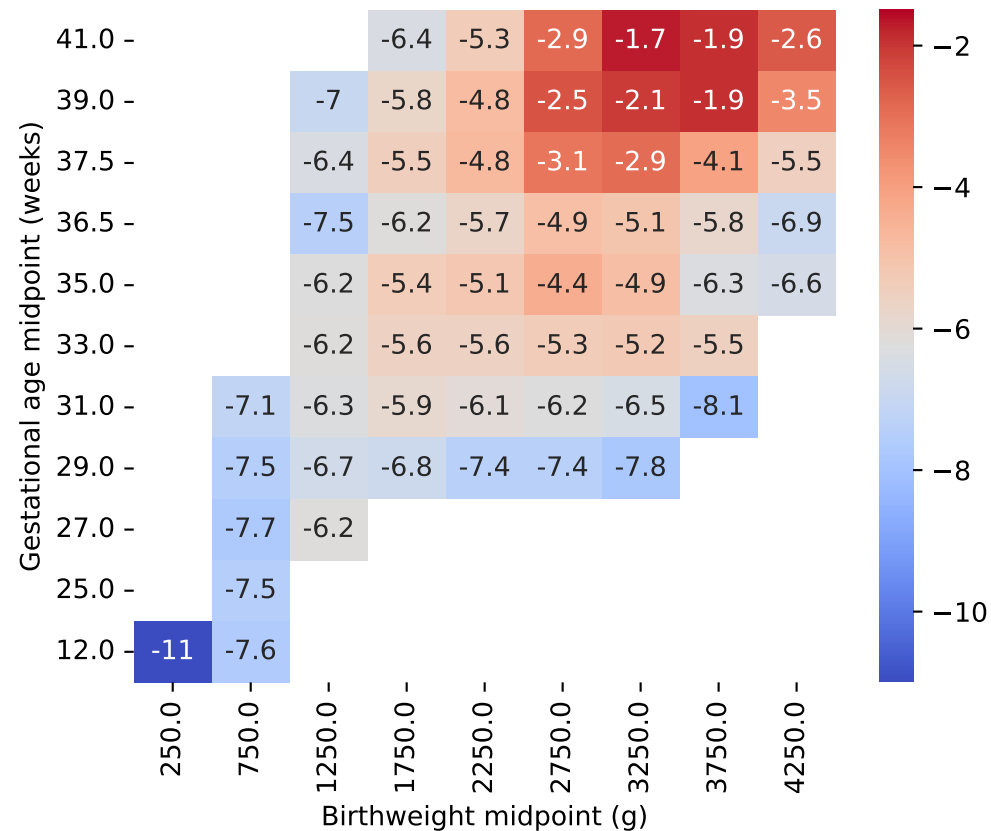

early_neonatal Females at initialization

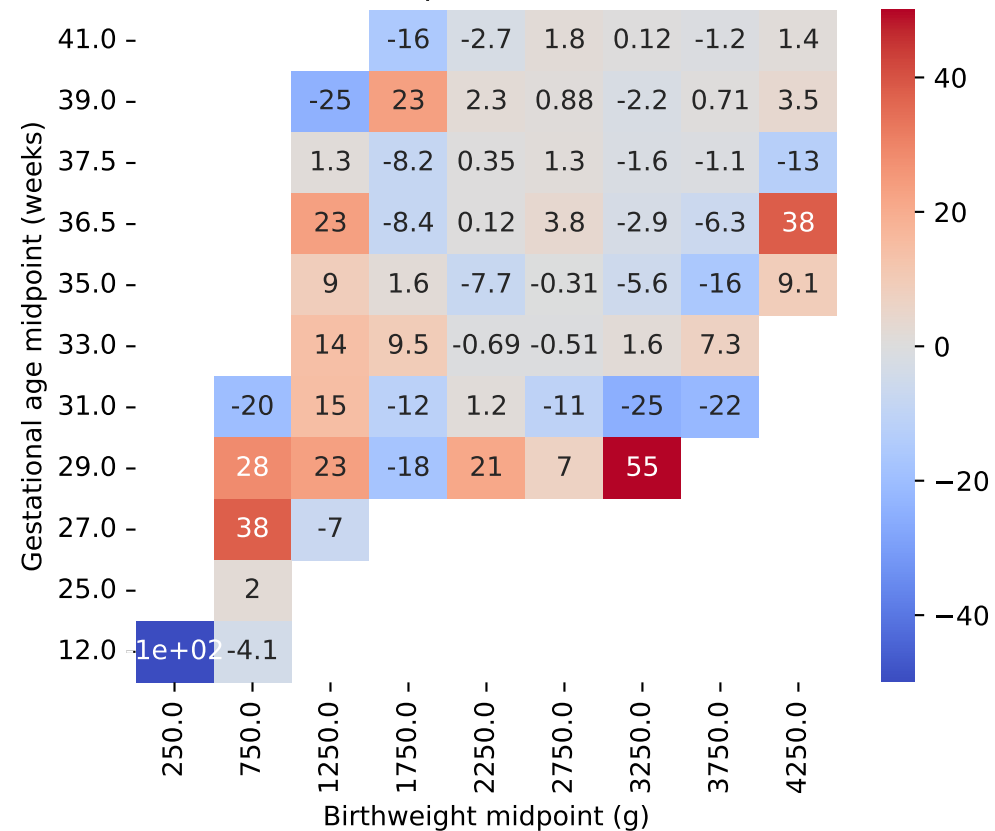

late_neonatal Females at initialization

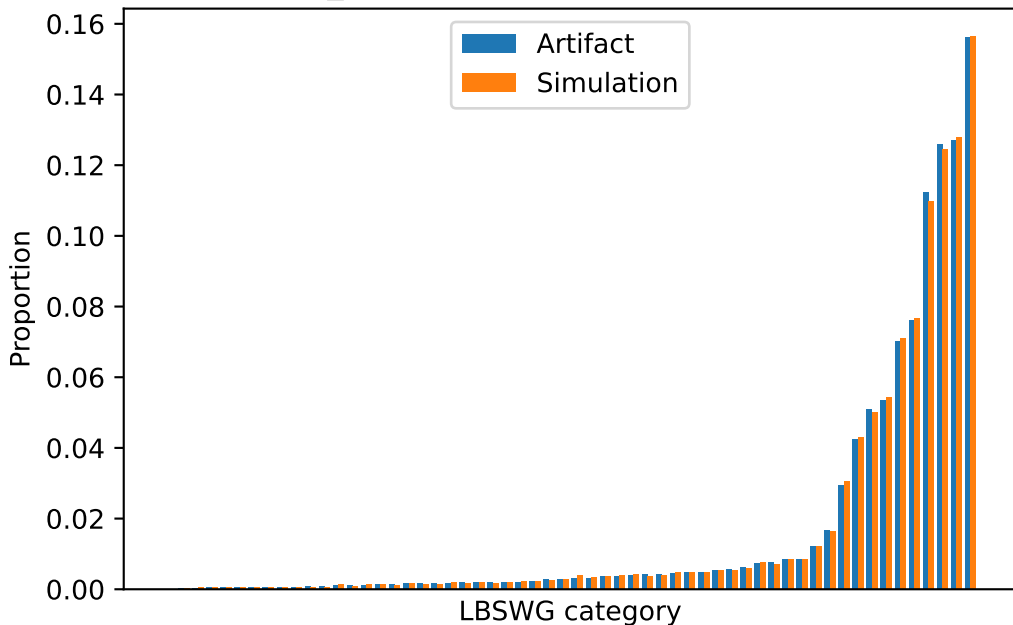

Logit-transformed exposure distribution from artifact

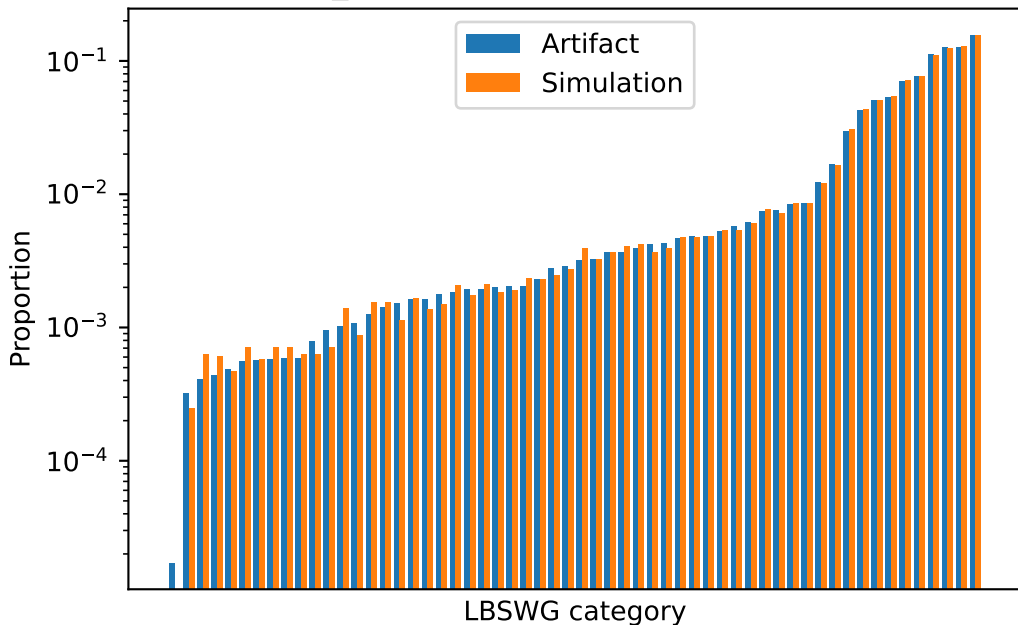

Simulation exposure relative to artifact percent difference

late_neonatal Females at initialization

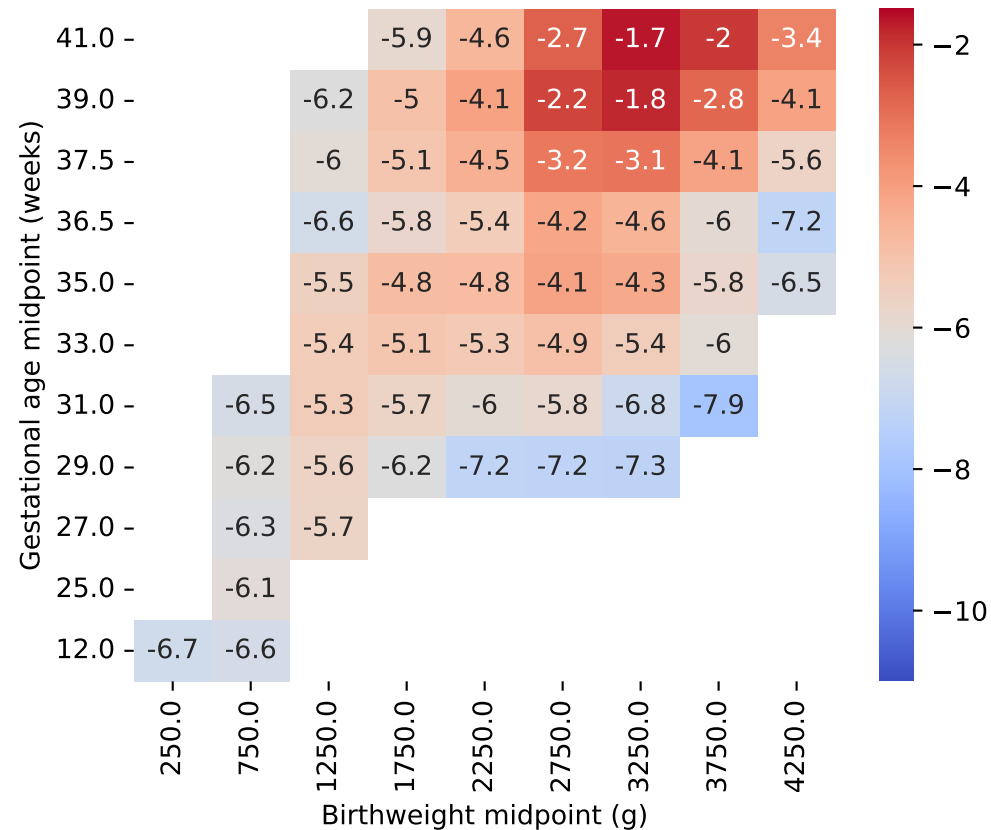

late_neonatal Females at initialization

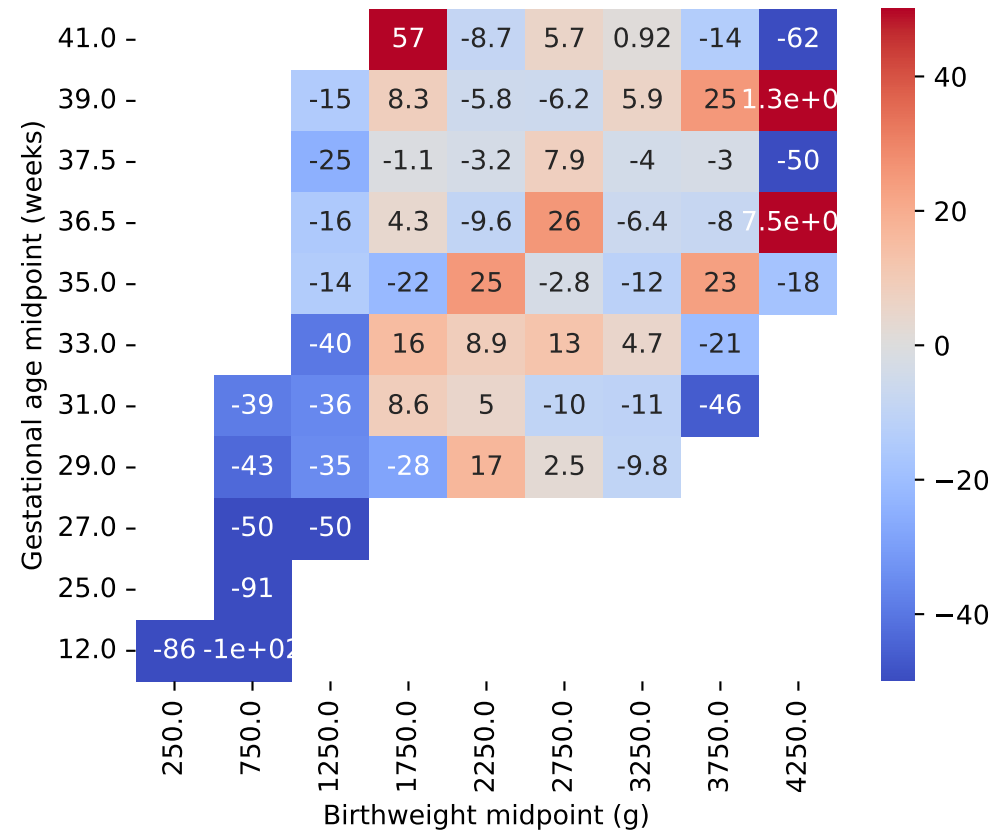

birth Males at birth

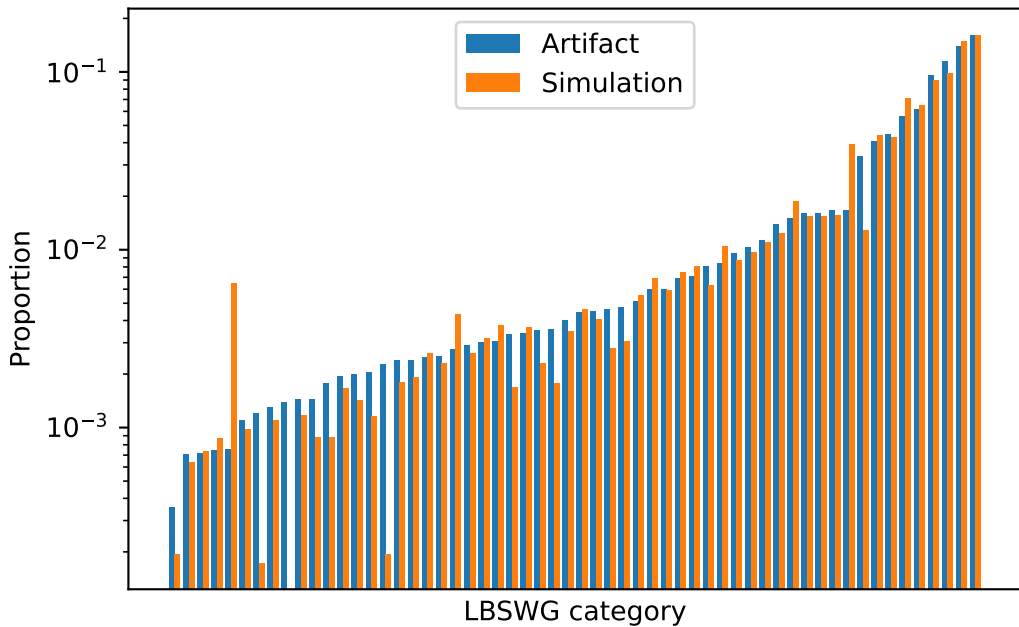

Logit-transformed exposure distribution from artifact

Simulation exposure relative
to artifact percent difference

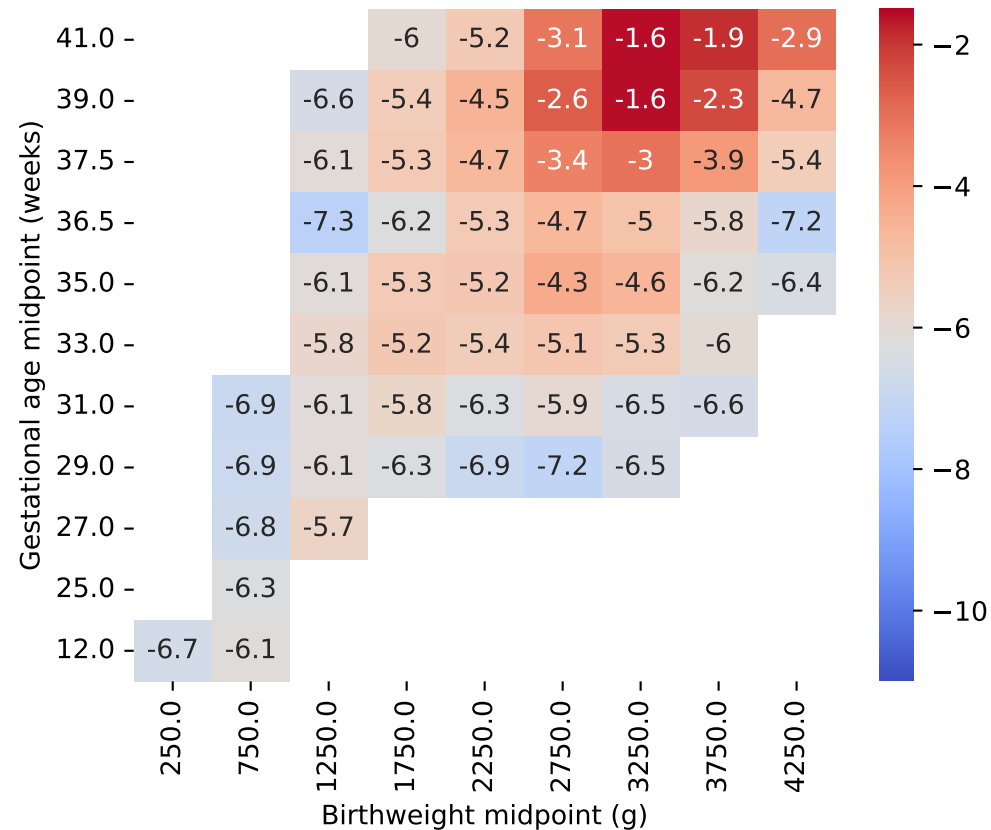

birth Males at birth

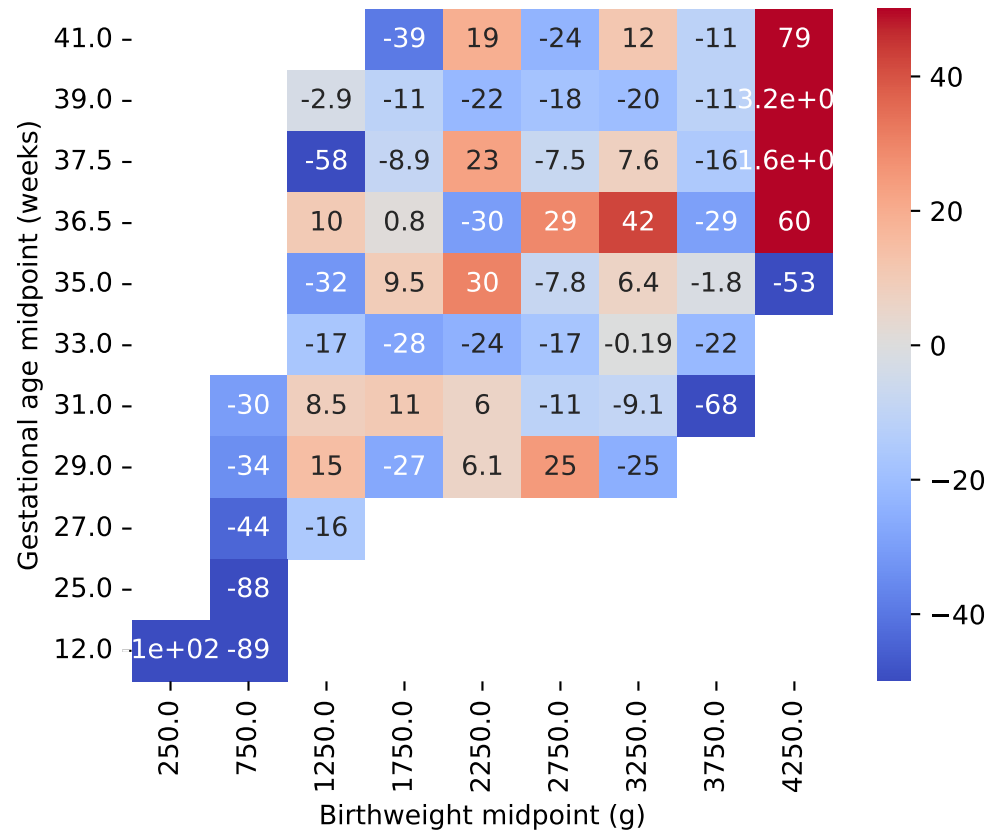

birth Females at birth

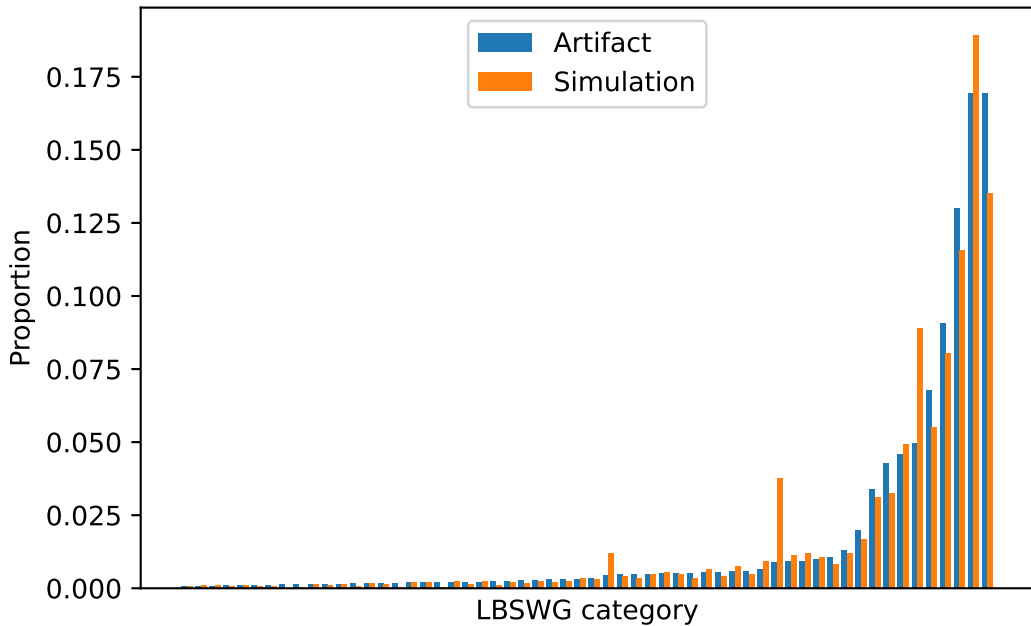

Logit-transformed exposure distribution from artifact

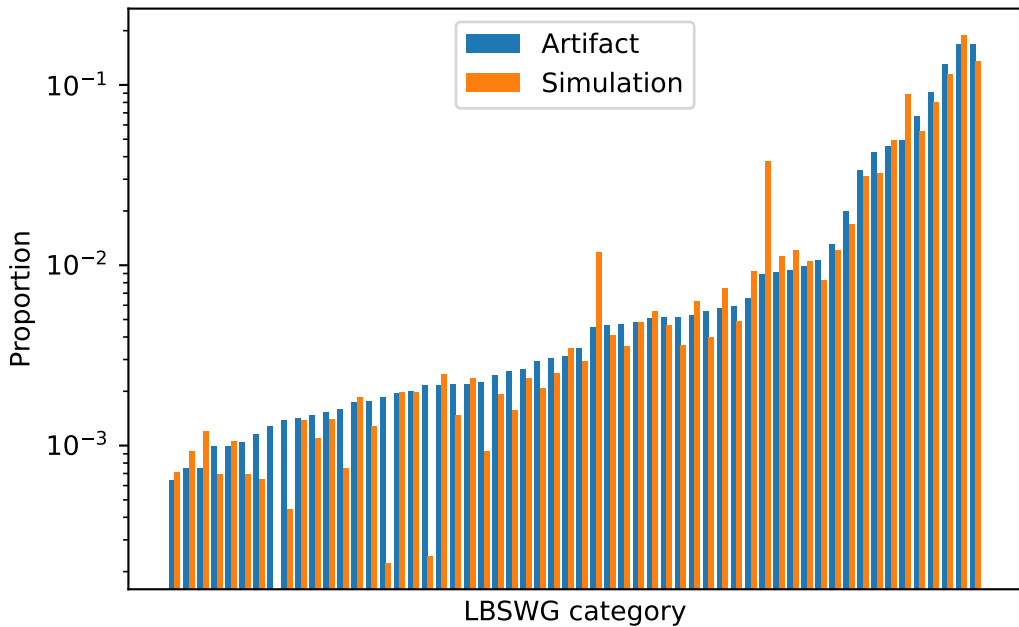

Simulation exposure relative to artifact percent difference

birth Females at birth

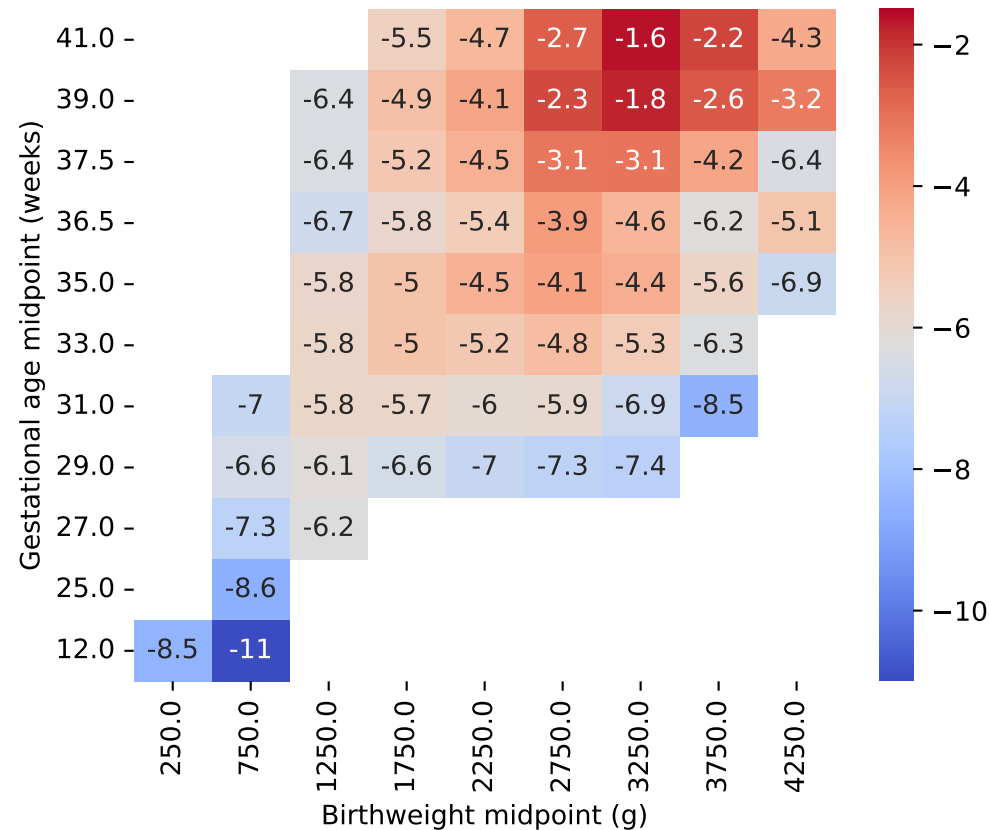

birth Females at birth

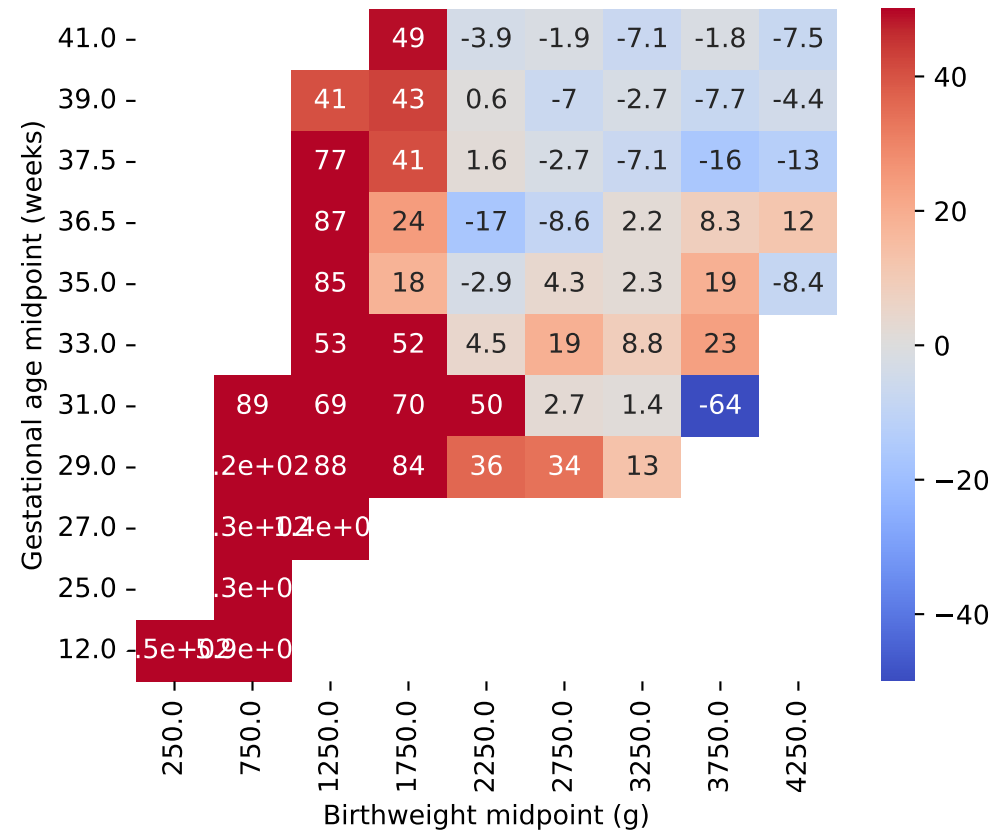

early_neonatal Males at 28 days

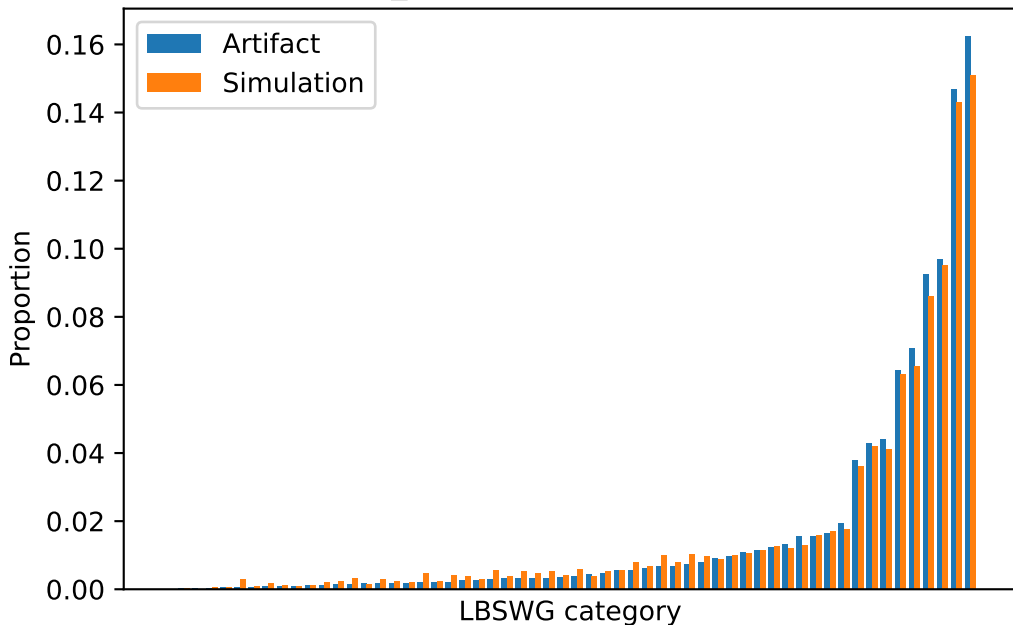

Logit-transformed exposure distribution from artifact

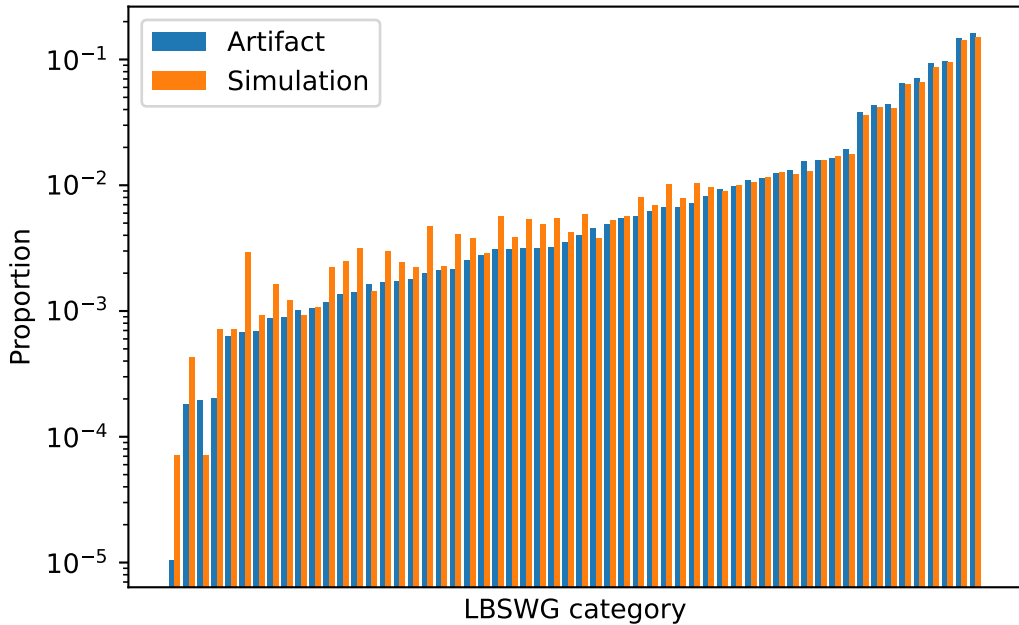

Simulation exposure relative to artifact percent difference

early_neonatal Males at 28 days

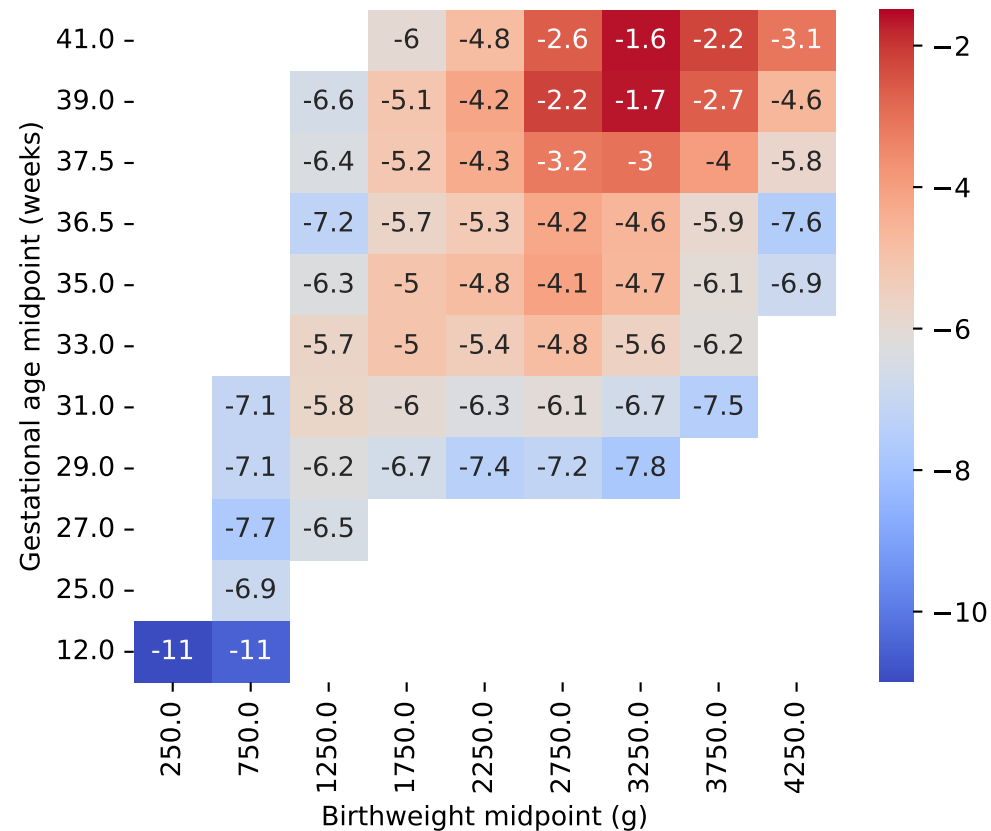

early_neonatal Males at 28 days

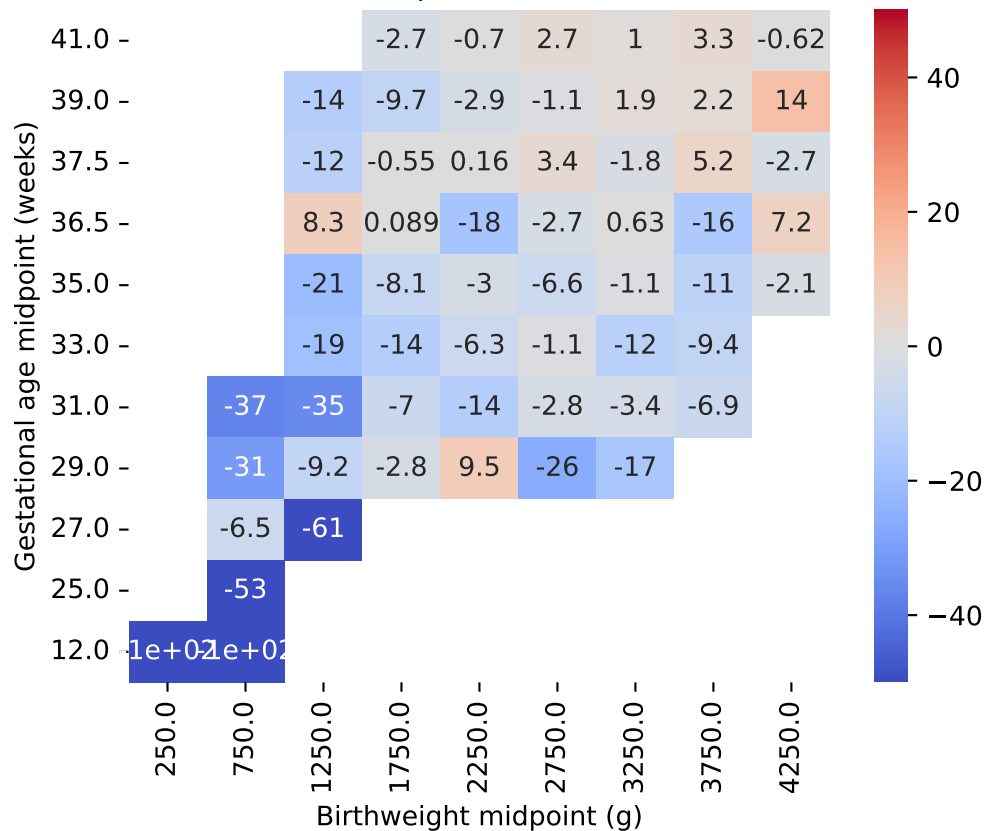

late_neonatal Males at 28 days

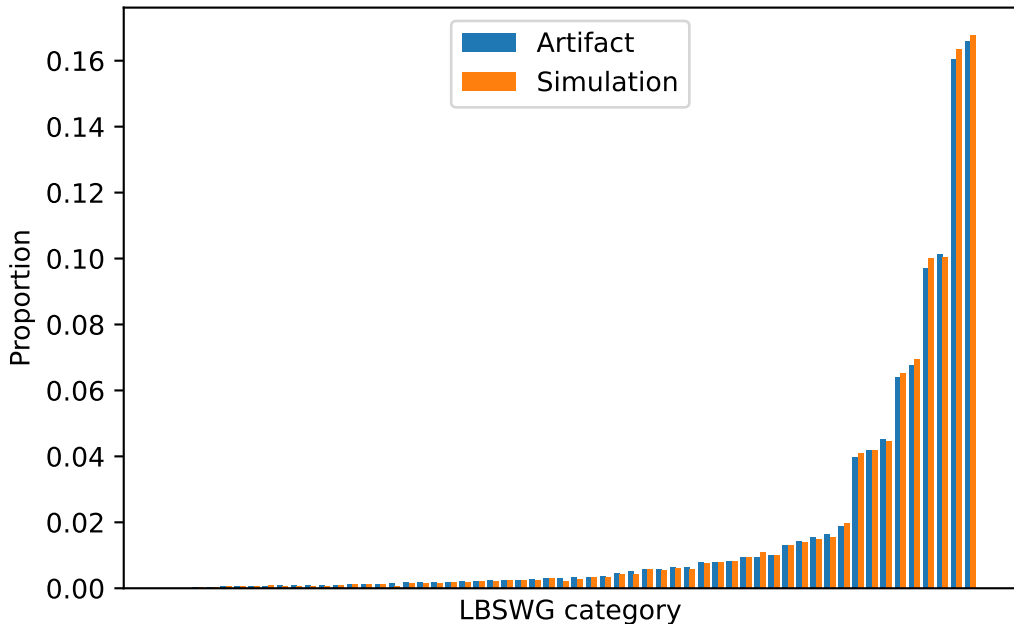

Logit-transformed exposure distribution from artifact

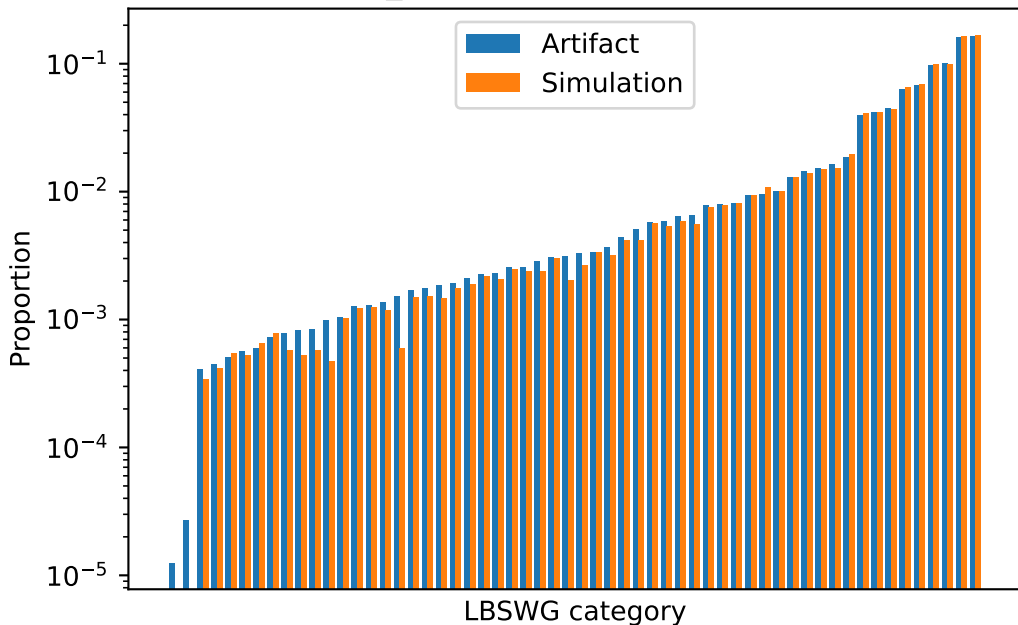

Simulation exposure relative
to artifact percent difference

late_neonatal Males at 28 days

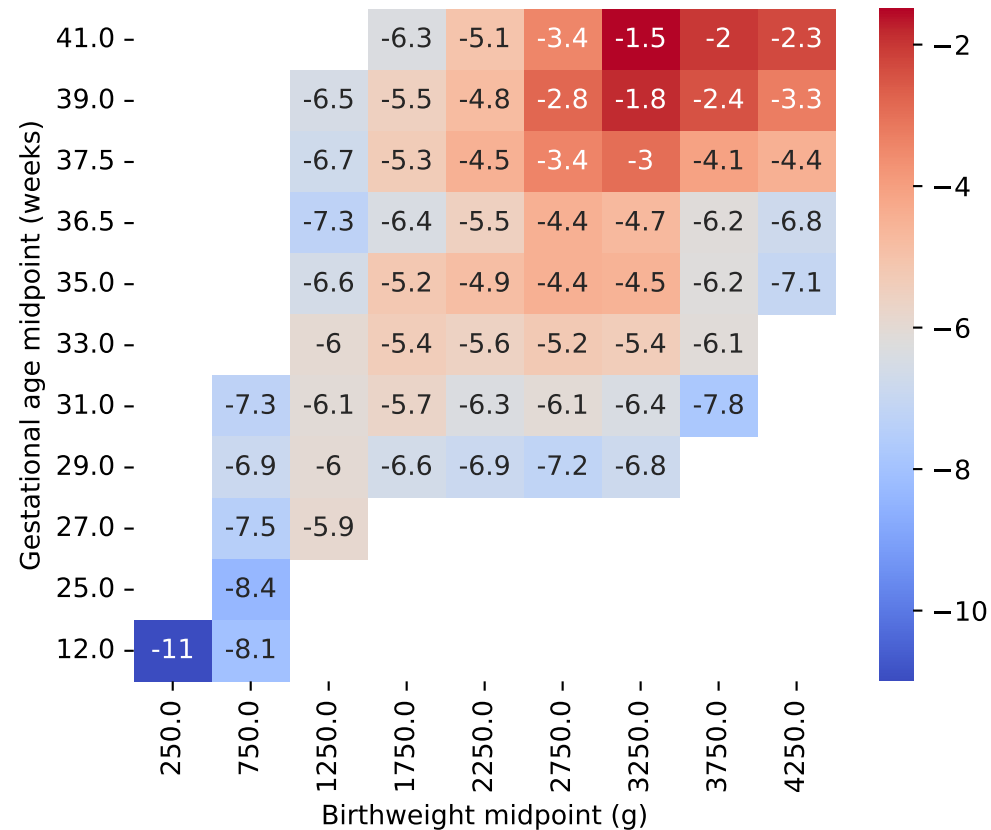

late_neonatal Males at 28 days

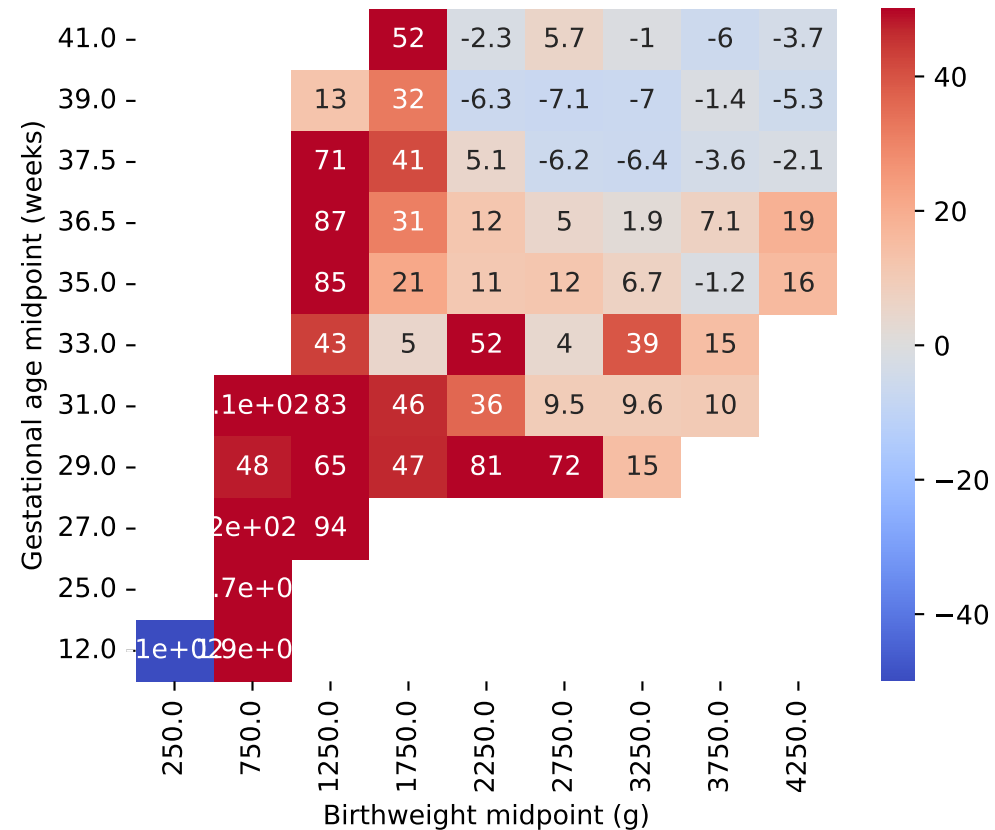

early_neonatal Females at 28 days

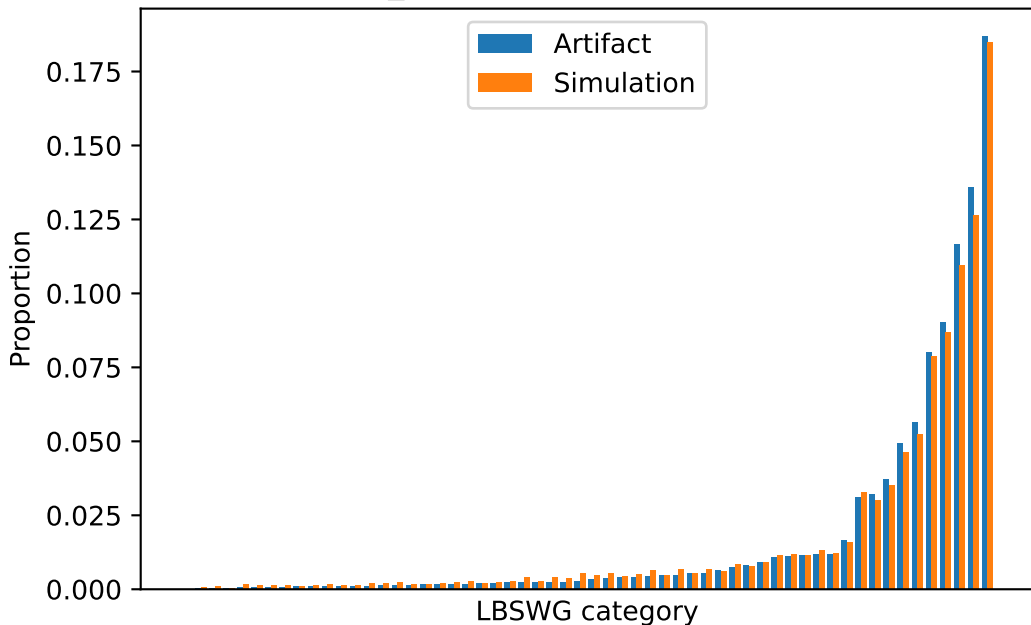

Logit-transformed exposure distribution from artifact

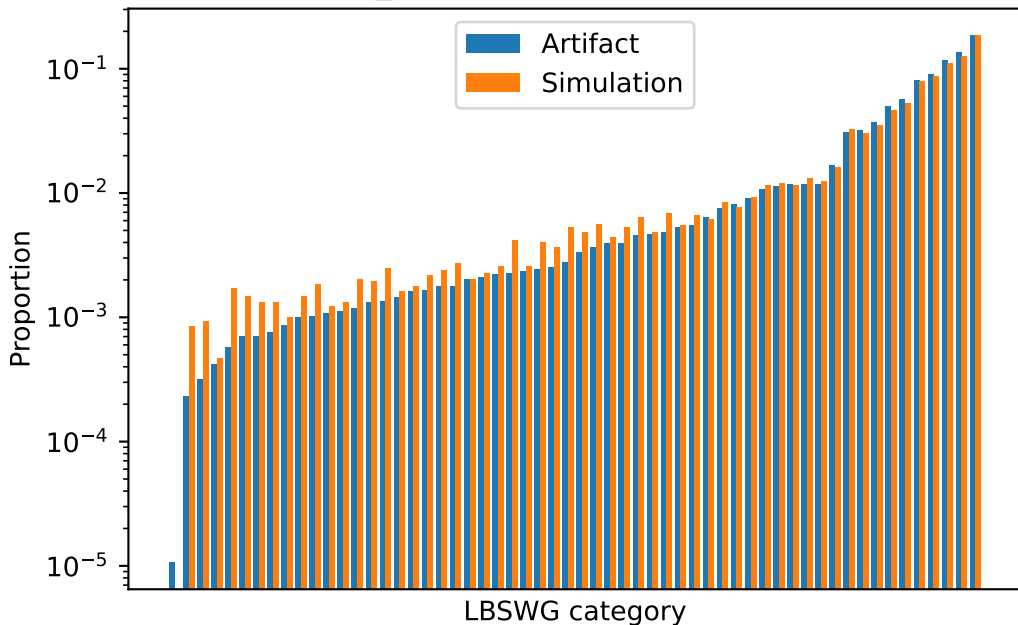

Simulation exposure relative to artifact percent difference

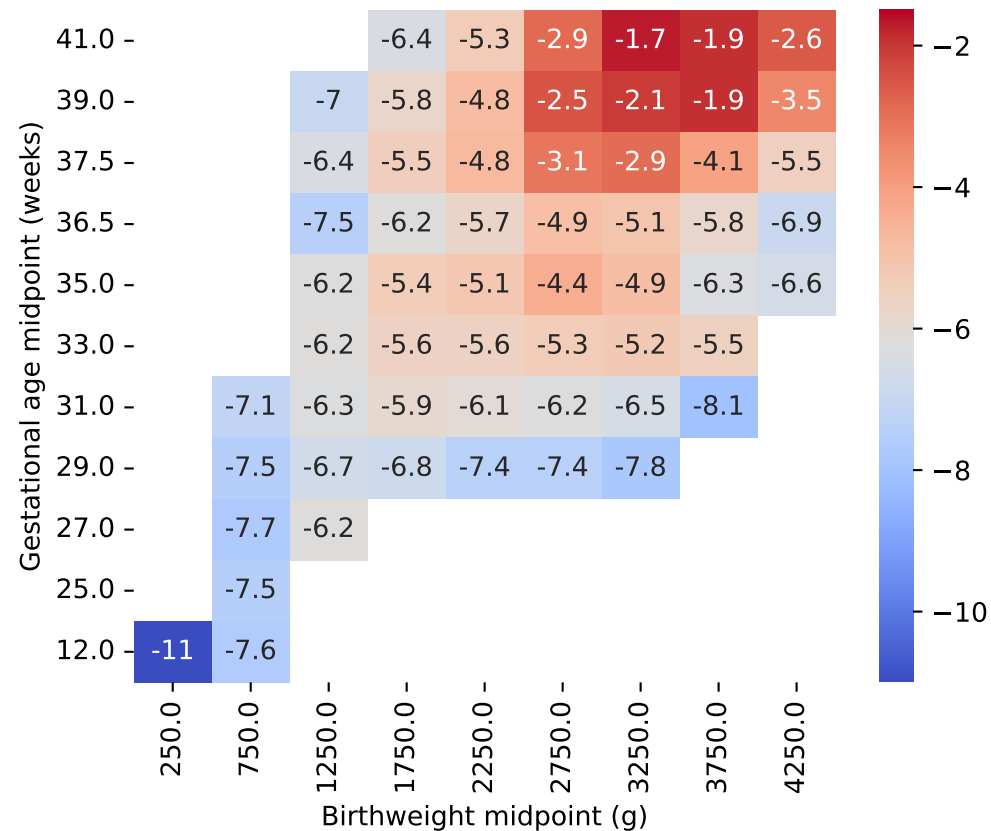

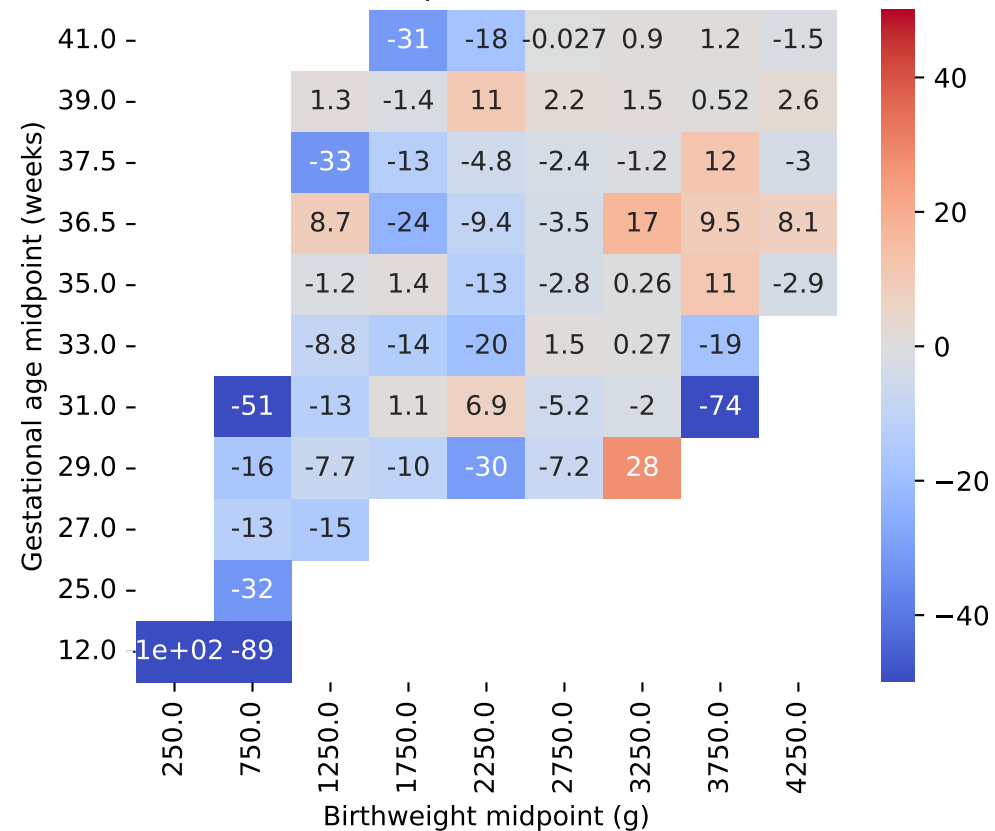

early_neonatal Females at 28 days

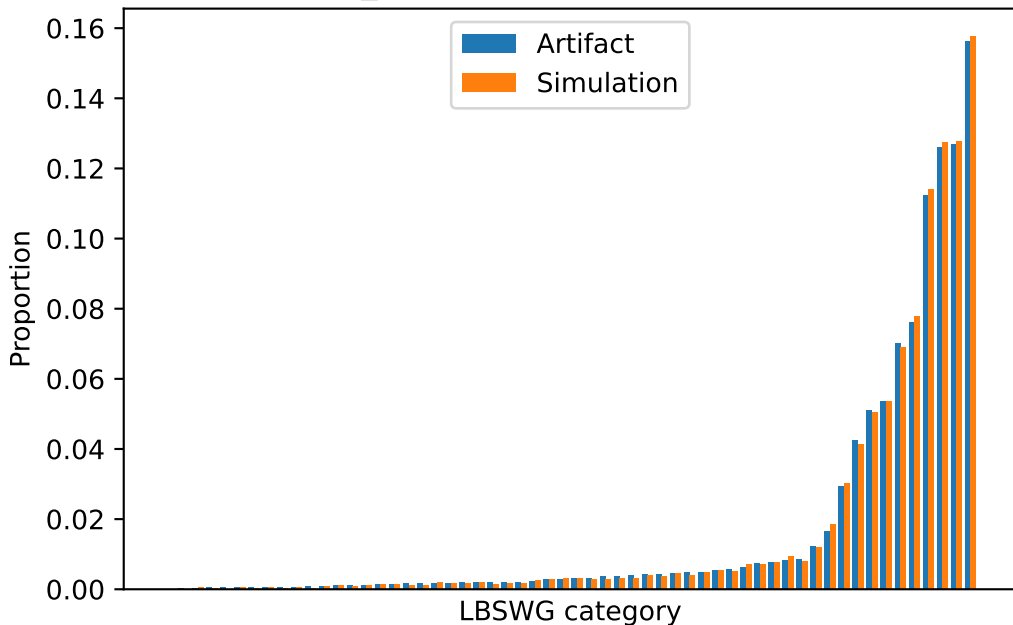

early_neonatal Females at 28 days

late_neonatal Females at 28 days

Logit-transformed exposure
distribution from artifactSimulation exposure relative
to artifact percent difference

late_neonatal Females at 28 days

late_neonatal Females at 28 days
